Levels and Entry Requirements

- Practitioner – ACLIP
- Senior Practitioner – MCLIP
- Advanced Practitioner – MCLIP
- Leading Practitioner – FCLIP

NHS
Health Education England

Practitioners

- exercise autonomy subject to overall guidance and direction
- perform a range of work, sometimes complex and non-routine
- select and use relevant methods and procedures
- demonstrate an analytical and systematic approach to issue resolution

Health Education England

Senior Practitioners

- exercise autonomy within limited parameters and may have responsibility for the work of others
- perform a range of work, often complex
- perform non-routine technical / professional activities
- identify, select and use appropriate standards, methods, tools and applications

Health Education England

Advanced Practitioners

- exercise autonomy within broad but well-defined parameters
- build appropriate and effective business relationships
- perform a range of complex technical / professional work
- apply fundamental principles in meeting work requirements
- advise on methods and tools relevant to your own specialism, making appropriate choices from alternatives

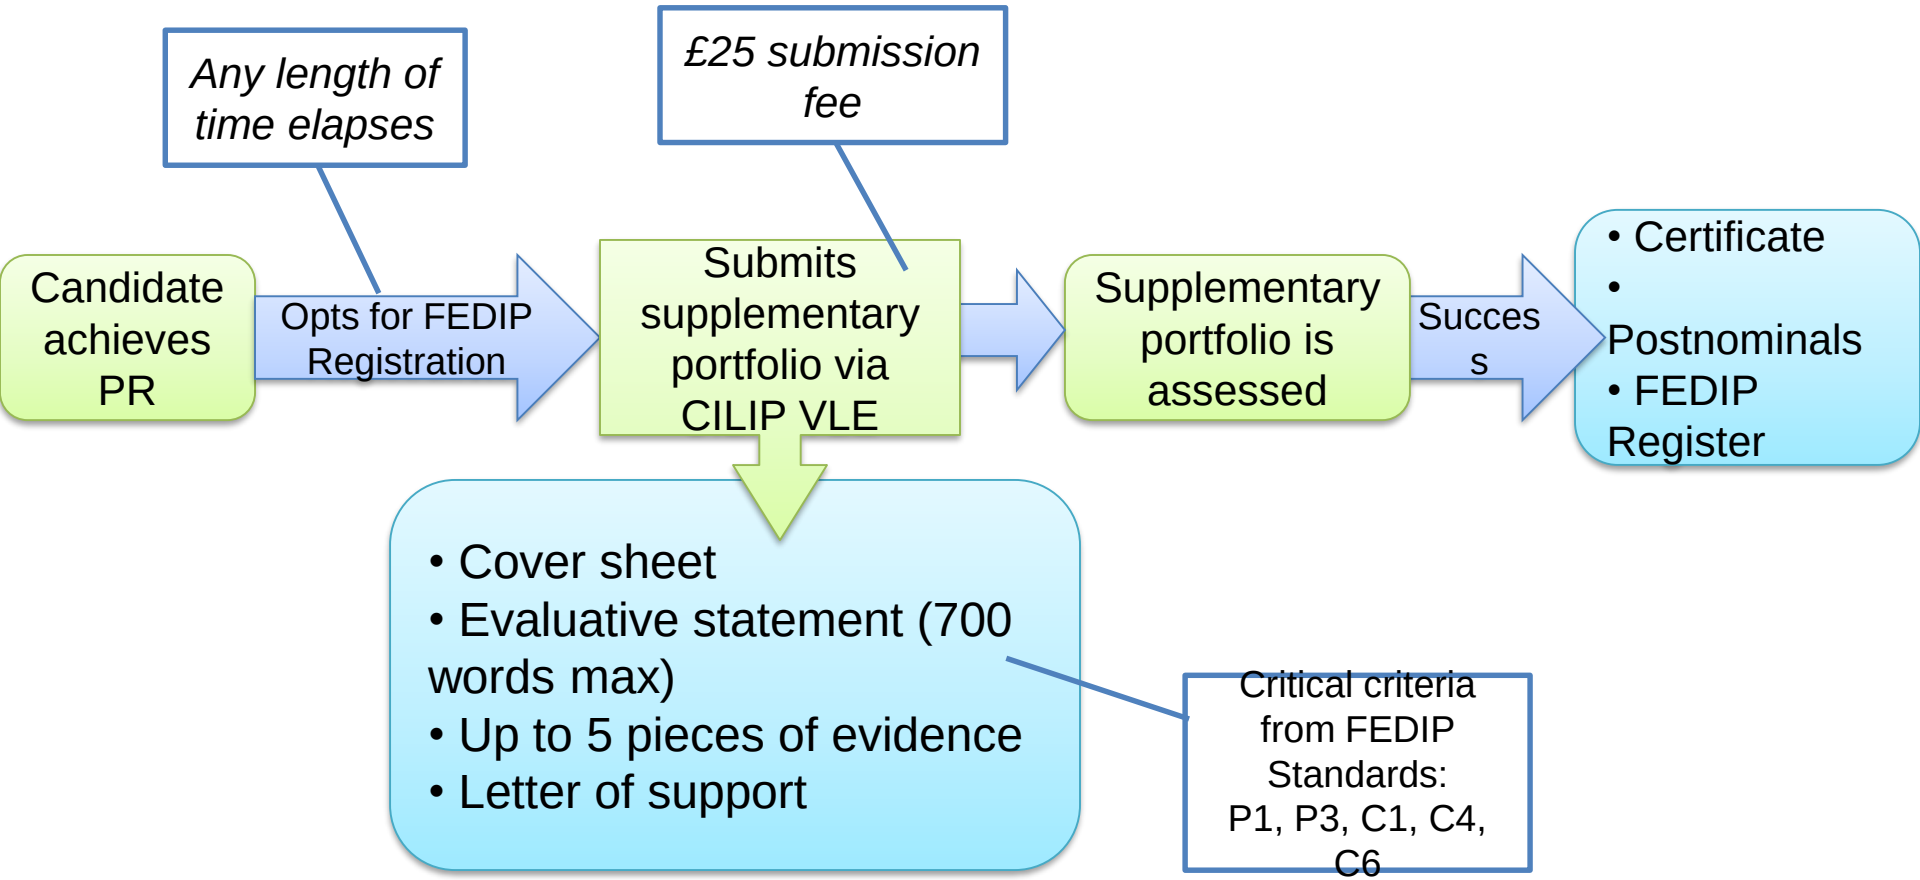
Health Education England

Leading Practitioners

- exercise autonomy within broad parameters
- have authority over all aspects of a significant area of work
- formulate and implement policy and strategy
- address complex, non-routine organisational problems
- have a full range of strategic leadership and management skills
- understand the industry in depth and the wider business implications of emerging technologies

Process Key Points

Health Education England



Health Education England

Levels and Postnominals

- Practitioner – **FED**IP-Pra
- Senior Practitioner – **FED**IP-SnrPra
- Advanced Practitioner – **FED**IP-AdvPra
- Leading Practitioner – **FED**IP-LdgPra

Conclusion

NHS
Health Education England

- **FED**IP registration is beneficial to all professionals working across the wider informatics spectrum
- Professional Registration is still the benchmark
- Process is designed to be slimmed down
- We need library and information professionals to be part of this
